### ONLINE PORTAL / APP

We will also be introducing a new **online Portal** where you can access information and photos about your child's day! This new exciting system will eventually replace our current system that we use via Word. We have reflected and found that the old system is difficult to access and revisit for both children and families. An online system will allow families and children and educators to connect instantly share information with each other. The portals are safe and secure and password protected.
